

Model	ADH1000W
Suitable Excavator	0.75T-1T
Max. Output torque(N.m)	950
Output Speed(r/min)	38-81
Oil Pressure(MPa)	15
Oil Flow(L/min)	15-32
Hydraulic Motor	Orbit motor

Note: 1. The orbit motor can be used with 7MPa back pressure, recommendation not higher than 5MPa; Otherwise connected with external drain line to oil tank.
2. The housing of hydraulic motor should fill with hydraulic oil before and during operation for lubrication and cooling.
3. Hydraulic motor is not allowable to used in max. speed and max. pressure at same times.
4. Output shaft type is optional by customer.
